

STRESS CLEANER **SX**

Technos Japan Co.,Ltd.

Your stress is visible. This is the stress cleaning machine in the next generation.

Why don't you try, epoch-making healing experience ?

Technos Japan Co., Ltd. newly developed 『STRESS CLEANER SX』, the system aiming to reduce human stress with the combination of healing picture and music, applying its own technology fostered by the BIO-SWITCH 『MCTOS』 (*1). You will by yourself confirm that the stress has been cleaned, seeing the change of your stress value shown on the monitor screen. The powerful supporter for present-day people, being looking for the healing of the stress coming from their daily-life like studying/working/personal relations, it is STRESS CLEANER SX.

Characteristics of STRESS CLEANER SX

Simple Usage :

By putting Bio-Header(*2) at your forehead, see and listen your selected picture and music for around 10-minutes.

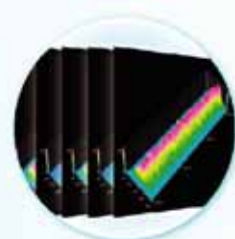

Bio-feedback (*3) :

Visual indication by Bio-Signal(*4) calculation getting from bio-feedback and own developed algorithm.

Healing by picture and music :

The original picture and music are used created by Della(*5) under the supervision by Prof. Shinobu Nomura, the authority of medical physician.

Data

storage/comparison :

By using this machine continuously, you can get your particular trend of your Bio-Signal change to make your stress control by yourself.

Stress value indication (NB value) (*6) :

The Bio-Signals detected by Bio-Header are calculated/converted and shown in numerical value (NB value) or in bar graph. You can by yourself confirm the change of NB value by seeing/listening healing picture/music.

Bio-Signal indication (Bio-monitor) :

The Bio-Signals detected by Bio-Header can be shown as three-dimensional too. You can by yourself confirm the change or strength of your forehead signal continuously.

*1 Bio-Switch 『MCTOS』: A welfare equipment, developed by Technos Japan Co., Ltd., to support communication using brain-wave.

*2 Bio-Header : An equipment to be attached to forehead. Bio-Signals detected at forehead are boosted and transferred wireless to PC.

*3 Bio-feedback : A technology electronically detecting invisible Bio-Signals, converting its result into visible signals and to make person intentionally control his conditions.

*4 Bio-Signal : Very weak electric potential like brain-wave, muscular-electric-signal or eye-electric-signal.

*5 Della : Della Inc., producing original healing pictures and music, having good experiences in the field of relaxation and healing.

*6 NB value : Numerical of Biological Signal, showing Bio-Signal value which Technos Japan Co., Ltd. originally made out.

Healing contents

7 types and 30 varieties are ready –

You can enjoy good healing result with your favorite beautiful pictures and music at your choice.

Bio monitor

Bio monitor software can make you see your Bio-Signals. It can collect various data like when you smile, get angry and speak out.

For example, you can by yourself see the change of your Bio-Signals when you enjoy your likings like golf putting, doing yoga, playing chess, playing go, and so on.

Self-control of stress value (NB value)

At your home, with continuous use for 10-minutes before going to bed, you will come to control then stress value (NB value) intentionally.

At this modern age having noticeable increase of mentally sicken population, many enterprises are focusing on mental health-care. The STRESS CLEANER is the product from which you can expect disappearance of your psychological irritation and fatigue with around 10 minutes usage at rest even at your working place. Many enterprises, who value mental-health-care as very important, are now studying to introduce the STRESS CLEANER for its handy-ness and effect for their personnel's feeling changes.

Present modern society is said as high stress society which we have never seen and 60% of the people are reported to strongly feel various stresses in their daily life. It is necessary to make effort to disperse stresses in order to live healthy life mentally and physically, and we call this as stress management.

There are several ways to perform stress management, and relaxing method is one of the ways. Relaxing is the transformation from the sympathetic nerve predominant situation to the parasympathetic nerve predominant situation, and there are several practical ways to get relaxing like independence training method, Zen meditation, hot spring therapy, aroma therapy, music therapy or bio-feedback method using bio-signals. The STRESS CLEANER SX (SC-SX) is an epoch-making tool so to get relaxing, confirming your own conditions to see relaxing images through monitor of your bio-signals. Excellent relaxing results were confirmed through our experimental study in psychological/physiological effect. Why don't you try to use it, when you feel tired mentally/physically or when you cannot sleep having your nerve excited with stresses.

STRESS CLEANER SX

Product configuration

Bio Header
Size W:160×D:180×H:37 (mm)
Weight 86g

Bio Receiver
Size W:23×D:79×H:15 (mm)
Weight 16g

USB Cable
Signal Cable 50cm

Headphones
Signal Cable 3m OFC
Weight 270g

Outer-fitting Hard Disk Drive
Size W:45×D:200×H:164 (mm)
Weight 1.5kg

Product configuration and specifications may be changed without pre-notice for improvement sake.

•This product is an electronic device and not a medical device.
•Bio-Signal values (NB values) or the control capabilities vary depending upon individual person and therefore we do not grant its efficiency for all the people.
